

Implement, Certify & Maintain AS 91001 Rev. D (2016)

Transition from AS 91001 C to AS 9100 D

Made Simple, Easy & Effective

Conformity, Assurance & Certainty with Effivity

AS9100D (2016) encompasses ISO 9001:2015 requirements and includes additional requirements for quality, safety and delivery relevant to the aviation, space and defense industries. Since aviation, space, and defense organizations design high risk and high cost products that are regulated by tightly controlled industry requirements, AS 9100 C was revised to provide an enhanced quality management system specifically for aviation, space and defense industries.

What does this mean for certified organisations?

- All AS 9100C certificates will expire on the 14th September 2018.
- All certified organisations wishing to continue AS9100 certification will be required to transition to the new standard.
- The transition timescales are short. Very Short!
- Certified organisations will need to complete update training and implement the new requirements.
- Certified organisations should start preparing for the changes and implement an action plan to transition to the new standard as soon as possible.
- By the 1st March 2017 all certified organisations are required to provide a statement of intent to transition to the new 2016 standard.
- All AS9100 certification body audits after June 2017 must be to the new revision. Will you be ready?

How can Effivity makes transition to from AS 9100C to AS 9100 D simple, effective & employee friendly?

With our unique, intuitive and comprehensive yet easy to use software Effivity, we make transition to AS 9100 D a value adding process. With Effivity, you can not only migrate to the new standard efficiently but you can also achieve integration with other standards like ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007.

Effivity ensures you have a result oriented Quality Management System available on cloud or on-premise with comprehensive dashboards, data analysis and superior support for implementation & certification.

Effivity Modules for effective AS 9100 D Implementation, migration, certification & maintenance

- Context of the Organization
- Risk and Opportunity Management
- Policy & Objectives
- HR
- Marketing/Sales
- Design and Development
- Purchase
- Operations
- Quality
- Change Management
- Documented Information
- Non-Conformance
- Internal Audit
- Management Review
- KPI Monitoring

Demonstrate your compliance to AS 9100 D 2016 standard with Effivity...

**Various requirements..... Different compliances..... Additional processes.....
Newer documentation..... **One solution**... Effivity.**

See how Effivity can help you address various newer requirements / changes of AS 9100 D standard below:

AS 9100 D Clause	High level changes from AS 9100 C to AS 9100 D	Related Effivity Module
