# Making Quality - Health - Safety & Environment Compliance Simple, Smart, Agile, and Effective

- Smart
- Collaborative
- Cost Effective
- Employee Friendly
- Efficient
- Effective

- Adaptable
- Fully Customizable and Configurable
- Secure
- Clear and Precise
- Always Audit Ready

## The Most Pragmatic Approach To Develop, Implement, Monitor, Improve and Sustain Quality -Occupational Health & Safety Environment Management Systems

- A fuss-free approach to manage ISO, GMP, and FDA standards.
- Effivity comes with a set of 275+ Pre-Built, Pre-Configured, and Validated Workflows and over 120 ready-to-use forms that will give you an edge over your competition.
- Streamline processes and increase efficiency. Achieve higher productivity.
- Automate, Customize, and Optimize your QHSE management system for tangible business benefits.

Our customers love the Positive impact Effivity makes to their Organizations.

"Nice tool to implement and certify your organization for ISO 9001 Standard."

"Ecstatic! Its exactly what i envisioned of how my company's ISO QMS& HSE management software tool should be."

"Nice, functional and easy to use QMS & SHE software."

"Excellent interface, and easy to control and management ISO requirement."

"Excellent tool for process automation and QHSE system maintenance, blessing for my company."

## On-cloud & On-premises Deployment Options

## Effvity Classic

Off-the-shelf, pre-configured, and ready-to-use QHSE Software that is benchmarked with the best global practices. Effvity classic offers rapid deployment and implementation with unmatched cost effectiveness.

Suitable and recommended for small- to limited medium-sized organizations with resources and unlimited ambitions.

## Effvity Pro

Customizable, adaptable, and configurable QHSE software that boasts custom workflow, forms, fields, and reports. Effvity Pro maps precisely to your actual operations and processes. Our Effvity Pro platform provides a robust BPMN based code-free framework for easy customization that saves time, money and resources over traditional software solutions.

Suitable for medium- to large- sized organizations requiring QHSE software as unique as their growth story.

## Effivity is Smart

- Issues alerts and reminders for important and critical QHSE tasks through email and on-screen notifications.
- Saves you time with its intuitive, automated, and configurable workflow that manages major routine tasks.
- Identifies improvement opportunities existing in various processes by way of automatic data analysis and statistical representation capabilities of the software.
- Offers advanced access control at application level, module level, screen level, and record level that is configurable based on department, role, or employee.
- Frees more time up for you to spend managing and improving your business instead
- More efficiently manages QHSE compliances.

## Effivity Promotes Collaboration

- Allow multiple users to work simultaneously on various projects.
- Exchange and use data/information captured by other users instantly.
- Import/Export existing documented information, if required.
- Create new documents, review, approve, and submit change requests online, collaborating with multiple employees.
- Define, plan, track, and improve key performance indicators and process parameters.
- Integrate other software, ERP applications, CRM, HRMS, etc. with Effivity seamlessly with our API-ready architecture.

## Effivity is Secure

- Industry-leading 256-bit SSL encryption.
- Same level of data and information security as online banking platforms.
- ISO 27001 information security management system and ISO 27018 certified state-of-the-art Microsoft Azure, a cloud hosting provider, ensures confidentiality, integrity, and availability of information during the entire life cycle.
- Multiple data backups, redundancy of servers, and a robust business continuity management system that ensures 100% availability of software and data on demand.
- Zero data loss due to computer crashes, hard disk failures, or paper loss/damage experienced in manual/ traditional management system.
- Data always available wherever and whenever you need it 24 x 7 x 365.

## Effivity Brings Clarity and Precision to your QHSE

- Tasks and pending actions accessible on each screen.  
Everyone in the organization knows how to address process compliance requirements.
- User-friendly and intuitive software design coupled with automated flow enables employees at all levels to use the software independently and easily.
- Help available at module, screen, and field levels to ensure that work never stops.
- A unified platform for all the processes, offices, business units, and employees. Centralized task management, alert management, and notification workflow ensures optimum communication.
- Multi-level review and approval requirements for better risk management.
- Corporate and module dashboards for real-time, informed, quick decision making.

## Effivity Adds Flexibility to your Qhse

- Customizable applications, workflows, organization-specific forms, and reports can be developed and deployed quickly to enable your QHSE management system to reflect your business.
- Available in English, Spanish, Italian, German, French, Portuguese, and Arabic. Accessible from home, the office, or on the go.
- Design your ISO 9001, ISO 14001, and ISO 45001 management systems as per your business needs.
- Effivity is browser and device independent for an equally enriching experience each time.

## Effivity is Customizable and Configurable

- Effivity maps precisely to your business processes and workflow requirements.
- Effivity can be customized easily and quickly to your desired level without the need for any specific IT resources/software development team.
- Effivity is a world-class, robust, and scalable BPM platform that lets you use our pre-built workflows, customize them, or build your own applications, workflows, forms, and reports from scratch.
- Rich and comprehensive business intelligence functionality built on our "Smart, Agile" framework that delivers custom reports on demand or scheduled.
- Customize and configure everything - applications, workflows, approvals, alerts/notifications, user interface, approvals, access control, forms, fields, menus, reports, and more.

## Effivity is Employee Friendly

- Super easy and intuitive user interface for quick onboarding. Employees with varied levels of computer proficiency and IT knowledge can use the software with equal level of efficiency.
- Simple drag-and-drop backend functionalities make it even simpler to learn and operate the software with a minimum learning curve.
- Onscreen help, extensive user help content, training tutorials, videos, and online/onsite support by Effivity experts during or post implementation are a few of the channels we provide to ensure that we are with you when you need us- 24 x 7.

## Effivity is Efficient

- Efficiently set up and start managing your QHSE in less than ten minutes.
- No more juggling several forms, templates, printed documents, and spreadsheets.
- Save 85% more time on QHSE compliance compared to traditional manual methods. Central location for data and information enables prompt retrieval for quicker decision making.
- No more emails, reminders, or phone calls to your staff regarding QHSE tasks; Effivity has an intelligent notification and alert system that ensures you never miss a critical task.
- Automatic updates and upgrades.
- Improves top-line and bottom-line performance through better process efficiency, lower customer complaints, and fewer processes.

## Effivity is Effective

- Effivity serves the purpose it was created for - ensuring a better compliance system to address various management standards.
- Various standards, multiple compliance requirements, and different assessments - all are integrated into a single unified system for enhanced Control and better decision making.
- Improve operations by implementing risk-based rationale at strategic, operational, and functional levels.
- Developed by expert consultants, auditors, and trainers with a cumulative QHSE implementation experience with more than 4,500 companies globally.
- Validated, accepted, and appreciated by prominent ISO certification body auditors for meeting requirements of ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, ISO 22000:2018, ISO 13485:2016, ISO 17025:2017, IATF 16949:2016, AS 9100 Rev D, ISO 27001:2013, etc.
- We understand that you, your processes, and your business are unique. Unlike other software, Effivity offers 100% customization and configuration capabilities for enhanced process effectiveness and process controls.

## Effivity is Cost Effective

- Get the most effective, efficient, and productive QHSE software to take your ISO9001, ISO 14001, and ISO 45001 implementation and compliance to the next level, at a daily cost of less than a McDonalds Burger or Starbucks Coffee.
- No investment in hardware, software, or databases if you opt for our cloud deployment option. No need to pay any upfront software license fees.
- Pay as you go and save 33% with our biennial subscription.
- Our packages allow you to add additional users at any point so you pay extra only when the need for scalability arises. Effivity grows with your business.
- Choice of monthly, annual, or biennial payment to keep Effivity economical and easy on your finances. Subscription starts with just \$10 USD per user per month for Effivity Classic and \$20 USD per user per month for Effivity Pro.

## Effivity is Always Audit Ready

- An integrated and employee-friendly software framework results in a very high level of motivation among employees at all levels to follow the "Update as you go" policy.
- Onboard notification engine ensures reminders and alerts in time for completion of due tasks which are critical to compliance.
- Grant access to internal/external auditors for specific modules to save time and resources spent otherwise.
- Demonstrate compliance with critical requirements like policy, objectives, document control, internal audits, deviation/non-conformity management, and risk management on demand, along with all other customized workflow-based data.

No more typical, last minutes meetingS and overnight sessions to prepare for an upcoming certification or accreditation audit as you will have all the data and information required to complete the audit successful - with just one click.

# Effivity is Simple, Agile, and Intuitive

Implement QMS, EMS, OH&SMS with ease

Benchmark global best QHSE practices

Get certified successfully

Customize and configure workflows, forms, menus, approvals, fields, reports, and data analysis

No IT expert/software developer required for customization

Enhance productivity and profitability

Get started quickly and easily. No harsh learning curves. Fast deployment.

Develop, implement, monitor, improve, and Sustain GRC, ISO, GDP, and FDA compliances effectively and efficiently.

With decades of **QHSE** automation expertise and leadership experience, **Effivity** partners organizations globally to take their **G-R-C** management to the next level.
